

Dark Star of SHVN

Lot
3

DOB : 6/24/08

Color: True Black

Sire: Botticelli

Dam: Patagonia Emma

ARI: 30975804

Donated by: Full Tilt
Alpacas

If you are breeding for greys, Dark Star is the perfect girl for your program. She is registered as a true black but when you part her fleece you see ALOT of grey fibers throughout. Her neck is completely grey and black. As she gets older we expect to see her develop as a modern dark silver grey and with Botticelli and CPeruvian Silvio in her background that would explain it! Her Grand Sire on her Dam's side is Shackleton who is the sire for award winning Neruda and Trauco! She has excellent bone and perfect conformation. Her fleece exhibits bold crimp character that is consistent throughout.

Dark Star spent this summer with a 4H group so if you would still like to show her before breeding she is very easy to handle. She is proficient in the halter classes and also obstacle, showmanship and public relations performance classes.
