Shepco Olivia of Bolivia is a rare full Bolivian out of the late Sayvon of Bolivia who was known for producing offspring with perfect conformation, lavish coverage, and very dense, fine fleece. Olivia lives up to all of these expectations. In addition to everything else she has to offer, we are going to add a breeding to either Charles P. Atlas, 5 time Get of Sire Blue Ribbon winner and sire of many champions and a Judges Choice winner OR MFI Peruvian Cactus Jack, our multi blue ribbon winner, multi banner winner and Futurity Reserve Color Champion who is also producing champions in his first year of production. Olivia has had her maiden veterinary exam and is ready and willing to breed following AlpacaFest weekend!
